INTRODUCTION

Most people are familiar with their Sun sign based on the month and day of birth. The Sun sign answers the question, "What's your sign?" It is the reference point that is employed when we read newspaper and magazine horoscopes. But what about the nine other heavenly bodies that make their influence felt in our lives? These planets were also in a particular sign of the zodiac when you were born. Here is where Astrology really begins to come alive for each individual. This report will take you on a revealing journey as you travel through each interpretation based on your unique month, day, and year of birth. If your birth time was included, then the Rising sign will add yet another dimension to your personal horoscope interpretation. If it is not included because you don't have an accurate time of birth, there is still much useful and insightful personal information that can be gleaned from your report.

This report takes into account the various spiritual and psychological implications, as well as the material plane potentials which are part of your individual life plan. In this case the word potential is used because you have been given a certain amount of free will and the life choices that you make will determine to a large extent the level at which these cosmic energies actually play themselves out. Use this report to find confirmation for what you already feel intuitively and to unlock the door for new life possibilities that you may not have yet considered. This is where the strength and real value of your personal Astrological report is found.

Your birth chart interpretation is based on the positions of the planets at the time of your birth. For the benefit of students of astrology, these positions, along with other technical information, are listed below:

Chapter 1: The Ascendant

The precise time on the day of your birth determines your particular Ascendant, also known as your Rising Sign. This was the zodiac sign that was rising over the horizon when you were born. In addition to your Sun and Moon Sign, the Rising Sign reveals very important traits that make up a major part of your personality and your individual approach to life. This is usually the impression you like to make before you really get to know someone; it is your outer personality and image.

Aries Rising:

There is a distinct part of your outer personality that expresses itself very much like an Aries. You are dynamic, you enjoy meeting new challenges and you keep things very interesting with your spontaneous "just do it" attitude toward life.

Since this was the sign of the zodiac that was rising over the horizon at your time of birth, the principle of Aries--new beginnings--will be integrated into almost every area of life in some way.

Mars is your chart ruler. To discover even more about what's a priority for you, and also, the first impression you make on others, read everything in the chapter on Mars.

Sun Conjunct or in hard aspect to Asc.:

You can develop a winning personality and the ability to attract lots of attention. You have a strong personality that radiates confidence. You have terrific leadership potential.

Chapter 2: The Sun

The placement of the Sun in your chart will show you how (the sign) and in which area of life (the house) tremendous potential exists for you. Here is where you want to be successful. The Sun cannot be ignored. We must meet and deal with the area of life that the Sun shines on in our chart in order find ultimate fulfillment. Everything revolves around the Sun. When you master whatever issues the Sun points to, then other areas of life will proceed in a more balanced and satisfactory manner. The Sun also represents: your own will, major goals, the father, men in your life, children, creativity, and the real inner you.

Sun in Capricorn:
As someone born when the Sun was in Capricorn, you lean toward a conservative approach to most matters and you possess a strong sense of duty. You are a hard worker and you will persist with a determined will toward a desired goal. You are capable of tremendous self discipline when necessary. The symbol for this sign is that of the mountain goat. This is most appropriate, as the mountain goat may climb the mountain slowly step by step, but will always eventually reach the top. This is an excellent analogy to describe the essence of the Capricorn principle.

Your cautious nature stems from an innate knowledge that impulsive actions may lead to mistakes that are more time consuming and costly in the long run. Capricorn is the sign of eventual success along with accepting responsibility. Many Capricorns find themselves in life situations whereby they must take responsibility for others in some way.

You would do well to try to lighten up from time to time as your natural tendency toward a serious outlook and heavy sense of responsibility can manifest as chronic pessimism and rigidity. Surprisingly, many Capricorns develop an amazing sense of humor--not only an appreciation of humor, but also the ability to create it. This is because they have learned that the best way to survive is to be able to laugh at the ridiculous ironies of life.

*Sun in 11th house:*

Your personal fulfillment is reinforced by expressing your uniqueness. Chances are you will find yourself having to work cooperatively within the framework of a group of people. The life challenge here is to work cooperatively while maintaining a certain amount of your own autonomy. You may have to make a choice about leaving the confines of a particular group and striking out on your own at some point.

You must rely on your intuition when dealing with certain associates, as this placement of the Sun can make you vulnerable to being taken advantage of by those who don't really have your best interest at heart. On the other hand, influential people may appear who can help you attain your fondest hopes and wishes.

There is a side to you that can be unpredictable, rebellious and highly independent. That which is considered to be different, unusual, or in some cases bizarre, appeals to you. You're often a step ahead of the crowd. Appreciate your own uniqueness.

*Saturn in soft aspect to Sun:*

You have excellent organizational ability and you know how to set realistic goals for yourself. You can discipline yourself to keep your energies directed toward the completion of projects without distraction.

Those in positions of authority can advance your ambitions up the ladder of success. This aspect helps to lengthen the life span.
Chapter 3: The Moon

The Moon in your chart represents the past and points to an area of life (the house) where we function out of instinctive awareness. Often we have a deep emotional need to do the things that the Moon's house placement represents. Whenever insecurities arise and our feelings become involved, we tend to bring the traits (the sign) of our Moon into play. The Moon is like our security blanket. It also represents: the home, females in your life, the mother, nurturing others or being nurtured ourselves, as well as things related to the domestic scene in general.

Moon in Pisces:

Sensitive, intuitive, and responsive, you need to withdraw from time to time in order to recharge your emotional batteries. You can be very impressionable because of a natural tendency to absorb psychic vibrations from your environment whether they are positive or negative. You may have a tendency to feel sorry for yourself, mainly because you often allow the needs of others to take precedence over your own needs which can lead to feelings of victimization or even persecution.

This placement of the Moon doesn't care for a steady dose of harsh reality and will often find ways to tune it out. This may take the form of daydreaming or in more extreme cases, addiction to substances.

You have an idealistic view of life and when it doesn't live up to your ideas of perfection, you can feel a kind of chronic discontent that is difficult to pin down to a particular situation.

At its best, having the Moon in Pisces can bring highly intuitive visions that may be downright psychic. At its worst, it can bring self delusion and misunderstandings.

You possess an excellent imagination and you could have a creative, musical or artistic bent.

When you're feeling emotionally upset, you may find that getting yourself into a meditative frame of mind will have a calming and healing effect on you.

Moon in 11th house:

You need groups of people and the support that friends and acquaintances offer. At the same time, you have a need to maintain an emotional distance so that your independence is kept intact, as there is a natural inclination toward yielding to the desires of the "group mind." Group associations often lack permanence depending upon how strong your individual desire for freedom is.

Women in general may have some important bearing on the realization of your hopes and wishes. Whether this influence manifests for good or ill remains to be seen.

Personal life aspirations and lofty ideals are subject to waxing and waning enthusiasm on your part. Try giving yourself little pep talks when you're getting off track.

Mercury Conjunct or in hard aspect to Moon:

Your emotional states can be in conflict with your rational, logical thinking processes. An example of this would be saying to yourself, "I know I shouldn't feel this way, but I can't help it."
You're restless and you have a lot of nervous energy that you find difficult to release constructively. Make lists for yourself if you find short-term details slipping your mind.

*Jupiter Conjunct or in hard aspect to Moon:*

When you become emotionally involved in a situation, you tend to blow things out of proportion. Once an emotion takes hold, it's hard for you to show restraint and then you wonder why others find it difficult to get as worked up as you are, or take you as seriously as you'd like.

When you're upset you can get careless and you cope by indulging your whims of the moment.

*Neptune Conjunct or in hard aspect to Moon:*

Depending on the particular mood of the day, you can be super-sensitive to every little thing, and you'll often want to retreat into your own secluded spot. Sometimes allowing yourself to "space-out" seems like the only way to preserve your emotional balance. Meditative states of mind where you allow your thoughts to flow without judgment can bring highly revealing insights into the nature of reality. A natural psychic ability is common.

**Chapter 4: Mercury**

Mercury is the planet of communication. It tells us about how we think and talk. You can gain insight into your mode of gathering, processing and transmitting information from Mercury's placement in your chart. Mercury also represents: transportation, the five senses, youth, reading, and writing.

*Mercury in Capricorn:*

Level-headed and careful, with this placement you also possess good solid common sense. You have the ability to focus single-mindedly on goals. You are a realist and ideas must have some kind of practical use in order to motivate you into action. You possess an excellent ability to handle and remember facts and figures. Your thinking is methodical and disciplined and these are usually the traits that describe the learning process for you.

You often take life and yourself too seriously. As a result this tendency can make you feel somewhat melancholy at times.

*Mercury in 11th house:*

You probably have numerous social contacts and many of your friendships are based on shared ideas rather than purely emotional interests.

You have an active mind and the ability to come up with unusual ideas. You can harness the power of your mind to turn your wishes into actuality.
Mars in soft aspect to Mercury:

You can talk your way out of trouble if you have to. Your mind is quick and your communications are expressive. Last minute intuitive impulses usually turn out to be in your favor.

Jupiter Conjunct or in hard aspect to Mercury:

You may experience an inner conflict at times between acting on logic and acting on pure faith. You express yourself well, but there is sometimes a tendency to be overly verbose due to the fact that you doubt your own ability to get your point across satisfactorily. People do understand more of what you say than you may think they do. Really grasping what you hear can be challenging for you because your mind often likes to race ahead of the subject at hand.

Neptune Conjunct or in hard aspect to Mercury:

Rational, logical thought patterns can conflict with intuitive perceptions. This means that you may not trust your own intuition simply because there is no rational explanation to back it up. Sometimes when you're verbalizing your thoughts, you can go on into infinity. However, at other times when you withdraw into your own mental "attic" you can become very quiet, giving others the impression that you're spaced out.

With this aspect it is important for you to cultivate inner conviction by eradicating doubts and irrational fears. Avoid indulging in self-defeating words or thoughts, as they may eventually manifest as tangible events. Instead, use your mind to imagine the best and reap the rewards of positive thinking.

Pluto in soft aspect to Mercury:

You can drastically alter your life utilizing the power of thought and words. Therefore, it is advisable to watch what you say and to banish negative thinking. Spoken and written affirmations carry extra weight with this aspect, so make them positive and life affirming.

Mercury is Retrograde

Lots of conversations are carried on inside your own head. With Mercury retrograde, you rarely blurt things out without thinking them over first. As a result, you may often find it easier to express yourself in writing. If so inclined, you'd make an excellent writer.

Chapter 5: Venus

Venus is the planet of relating to others, and thus is associated with love, attraction and socializing. In a male's chart, Venus can provide clues about traits he finds attractive in females. In a female's chart, it reveals something about how she relates to males. Venus is also the planet of material goodies and
sensual delights in all of their various forms. Venus also represents: money, harmonious conditions, pleasurable activities, beauty, and the arts.

Venus in Sagittarius:

Naturally friendly and easy to converse with, you exude a free and breezy aura that others find attractive.

You can be generous with your friends and a loyal companion. In love you're demonstrative, open and basically trusting. You could be attracted to someone from a foreign culture. Sagittarius is a sign that loves its freedom, and even though you are quite capable of commitment, there must be considerable breathing room in any relationship. Some Sagittarians find living together arrangements most appealing and others simply choose to remain single.

You may have to watch a tendency to be a spendthrift. The natural optimism of Sagittarius expects that there will always be more money where that came from!

Venus in 11th house:

Getting involved in group experiences is beneficial for you and you enjoy working cooperatively with other people especially those who come together with a common goal in mind.

Relationships in general have an unpredictable quality about them and you are often attracted to independent and unusual people.

The advice and support of females may lend assistance in the attainment of your hopes and wishes, however, let your own discretion be the bottom line.

Uranus Conjunct or in hard aspect to Venus:

Relationships in general often begin suddenly, but they also can end just as abruptly. This aspect brings many unusual associates and alliances, and you are attracted to people who are considered "different" by societal norms. If a relationship turns sour, you can become quite aloof as a way to emotionally cope with disappointments.

Financial matters often seem subject to sudden and unexpected circumstances that seem beyond your control. Consider getting a handle on any impulsive spending habits. Develop a routine of sticking some cash away so that sudden financial obligations don't turn into a major crisis.

Chapter 6: Mars

Mars is our planet of action, energy output, motivation, and instinctive biological drives. It shows how and in which area of life you are willing to put forth a lot of effort. Mars' energy is quick, impulsive, and survival oriented. In a male's chart, Mars reveals something about how he relates to females. In a
female's chart, Mars can provide clues about the traits she finds attractive in males. Mars also represents: competitive situations, conflicts, accidents, and sexual energies.

*Mars in Libra:*

You are rational, adaptable and drawn toward other people. Mainly, you enjoy social contacts because they satisfy your need for mental stimulation.

You usually have high standards of conduct and behavior. When you feel strongly justified about an end you are capable of going to extremes to see it through. However, the planet of action and aggression in the sign of diplomacy and cooperation can also combine to cause you to feel somewhat apathetic about life at times.

The Libran desire for justice, harmony and perfection are strong in you, and when others don't follow this same line you can be quite demanding. You generally dislike open conflict, instead preferring to use more subtle techniques to get things moving your way. However, you will eventually succeed.

*Mars in 11th house:*

You're willing to expend a lot of effort and energy in group affiliated activities. This refers mainly to groups of people who join forces to work toward a common cause. Many times this includes organizations whose goals are geared toward wide-scale social change.

You actively seek out friends and acquaintances, but betrayals of trust may be encountered with Mars here. When in doubt, keeping your own counsel and trusting your own intuition will allow you to avoid disappointments.

Most likely you are more action oriented than dream oriented when it comes to the attainment of your personal hopes and wishes.

*Jupiter in soft aspect to Mars:*

Your energy output can be expansive which is a definite plus when it involves getting things accomplished. On the other hand, you might have a difficult time controlling impulsive behavior. A tremendous amount of drive and energy can be at your command with this aspect. The key is learning to use this energy in constructive ways. Finding a sport to participate in or any other physical activity that you enjoy can provide an excellent outlet.

Your roaming instincts can be satisfied through travel and occasionally getting away from it all.

*Neptune in soft aspect to Mars:*

You can tap into unseen energies in your environment and that combined with the survival instincts of Mars gives you a very good sense of what is going on around you even if there appears to be no rational explanation for it. An example of this would be feeling like taking an alternate route to work one day and later finding that you avoided a major traffic jam.

If you use the highest form of these energies, you will spare no effort when it involves helping
someone out.

*Pluto Conjunct or in hard aspect to Mars:*

No one can ever accuse you of being wishy-washy or half hearted. Intensity of purpose and fearlessness mark your approach to going after what you want. If you feel threatened, you can be ruthless or even downright cruel. You are extremely goal oriented and if you use this aspect with wisdom, then nothing can stop you from achieving almost anything you wish.

Get in touch with and cultivate your compassionate side.

---

**Chapter 7: Jupiter**

Jupiter is the planet of expansion and taking things beyond normal limits. It shows us where the universe allows us to indulge ourselves, and often we find that wherever it is in the chart is where things work out in our favor eventually. Some call this luck. Jupiter also represents: faith, ideas about God, abstract thinking, high ideals, and abundance.

**Jupiter in Sagittarius:**

Freedom-loving, adventurous and inspirational, your mental capacities are expansive and grasping abstract theories is like child's play to you. You enjoy creating your own life philosophies.

There is strong potential here for lots of travel and contact with more than the usual share of foreign cultures.

Benefits in life come in the form of a kind of a special protection called luck. You are more than willing to take what others would consider to be foolish risks, and even though this makes for some tight situations, "Lady Luck" always seems ready to catch you before you hit bottom.

You speak the truth, often without pausing to mentally rehearse the effect that your candid approach will have on the sensitivities of other people.

Money is something you enjoy using to indulge yourself, however you can be as generous with other people as you are with yourself.

**Jupiter in 11th house:**

Friendships and associations through groups are lucky for you. Some of your fondest hopes and wishes can be realized with the help of people who are willing to lend their support.

You may have a large circle of friends and acquaintances, some of whom may be from a foreign culture, wealthy, or religious.

*Neptune Conjunct or in hard aspect to Jupiter:*
Sentimental and idealistic, you often find the reality of day to day struggles difficult to bear. The best way to use this aspect is to stay tuned into universal forces that promote faith and acknowledgment of a higher power in your life. You have the ability to move beyond simple faith into the realm of true enlightenment. This a lifetime in which the stars lend encouragement where spiritual pursuits are concerned. Take some classes in meditation and learn some techniques for grounding yourself on a daily basis.

Practice dealing with mundane responsibilities while they’re still molehills instead of putting them off until they turn into mountains.

Allow the imperfections of the world to stimulate practical actions for improvement. You can be a powerful force for goodness. Gurus may come and go, but remember to make your own intuition the bottom line; it will not fail you.

**Chapter 8: Saturn**

Saturn is our planet of restriction and discipline. It shows us where we may feel inadequate in some way, and thus we take this area of life very seriously because we want to perfect ourselves. Saturn also represents: life lessons to be learned, trials and tests, a strong sense of duty, and bringing ideas into material form.

*Saturn in Scorpio:*

You know how to manifest your deepest desires via unyielding force of intent. You can easily sense what lies beneath the surface of other people.

A major life lesson may include experiencing a deeply intimate relationship with another person. Other people's money (usually your spouse) may also present issues to deal with.

When you feel that you have been crossed, you often experience a nagging desire to get even. Even if the getting even takes the form of simply living well, you will be vindicated one way or another.

This can be a lifetime of either tremendous healing or massive upheavals depending on the choices you make. The ego force is quite substantial and you can utilize this force as a driving motivation for success. Patience with the foibles of others must be consciously brought forth.

Reminder: at some point in life you will be called upon to make a decision on the side of forgiveness and healing in order to elevate yourself.

*Saturn in 11th house:*

You are loyal to your friends and you take your relationships seriously. You more than likely have a few close friends rather than many.
You can be very dedicated when working toward a cause that interests you, especially one which requires the cooperation of a like-minded group of people. You would do well to enlist the moral support that groups can offer.

Hold on to your dreams. You may have to persevere in order to make them a reality, but time and determination are on your side.

Chapter 9: Uranus

Uranus is a planet of unexpected change and unpredictable events. It tells us something about where we have unusual ideas and how we want to express our own unique individuality. Uranus also represents: rebelliousness, sudden awakenings, invention, progress, genius, anything "New Age," and humanitarian efforts.

Uranus in Sagittarius:

Uranus was in the sign of Sagittarius approximately seven years. This means that you are part of a large group of people who will share many of the same fundamental characteristics such as the ability to be expansive in nature, adventurous and very philosophical. These people are capable of highly independent views of orthodox religious concepts, unusual approaches to education and a strong desire for intellectual freedom.

When you read your individual house placement for Uranus, you will be able to see where these traits will express themselves on a more personal basis.

Uranus in 11th house:

You can be a genius when it comes to creating some radical or wide-scale social changes through working cooperatively with others who share similar goals.

You'll find yourself involved with some interesting and unusual friendships. Expect that relationships formed within the group experience may have a somewhat detached quality to them. Some of these relationships can end as quickly as they began.

You'll turn your back on hopes and wishes held near and dear in the blink of an eye. You thrive on challenge and change.

Chapter 10: Neptune

Neptune is a planet that dissolves hard and fast boundaries. It is where we don't always see things as
they really are, mostly because we would rather view the world through rose-colored glasses. With Neptune, anything becomes a possibility, especially that which we can imagine. Neptune also represents: tuning into other planes of reality, the spiritual dimensions, cosmic consciousness, movies, music, and inspired creativity.

*Neptune in Sagittarius:*

Because Neptune stays in the same sign about fourteen years, there are many other people who will experience the same things that this placement brings to varying degrees. Some of these include: the ability to integrate unorthodox spiritual concepts with more traditional viewpoints, an intense attachment to personal freedom and philanthropic leanings based on compassion and idealism.

Your house position will show where Neptune affects your life on an individual basis.

*Neptune in 11th house:*

Life experiences will encourage you to learn how to draw some boundaries where friendships are concerned. When it comes to peer group associations you only want to see the best and you are therefore open to some disappointments when the glamour fades.

You can make the world a better place by giving of yourself with no thought of reward.

Realization of your fondest wishes can be reinforced by using your imagination to create positive visualizations of what you desire.

*Pluto in soft aspect to Neptune:*

Bigotry and narrow thinking are huge turn offs for you. You lean toward a humanitarian outlook and you see the big picture, whether it applies to you or society as a whole. Mysticism, magic and the occult attract your interest and you can choose to use any knowledge gained to produce positive results.

Spirituality can undergo a complete regeneration process, and what went before will be transformed into something that doesn't even resemble the former. Usually there is a period of total chaos and confusion before order is restored.

Anything that is based on deception and pretense will be brought to light and purged accordingly. The effects of this aspect are often generational and the outcome will affect large segments of the society you live in.

*Chapter 11: Pluto*

Pluto is a planet that brings with it transformation. Something about the area of life that it points to will undergo a complete change. Significant lifestyle changes can happen whenever Pluto is involved. Deep, complex issues will be brought to light eventually. It is where conditions can swing from one extreme to the other. It's all or nothing.
Pluto also represents: psychological probing, keeping secrets or bringing them to light, power and control issues, obsessions, healing and purification.

*Pluto in Scorpio:*

Pluto is the slowest moving planet, and thus is recognized as exerting a generational influence as it moves through each zodiac sign. With Pluto in Scorpio you're part of the generation that can experience radical changes in sexual attitudes, big business and banking, understanding of the supernatural realm and insights into the psychological workings of the mind. On a personal level, those with Pluto in Scorpio tend to be intense, intuitive, reforming and at times extreme or even violent. Read the house placement for Pluto in your chart. It shows you an area of life where this planet has a more personal influence.

*Pluto in 11th house:*

You have ideas about creating the perfect utopian society and you feel the ills of the world deeply. It wouldn't be surprising if you ended up joining a group dedicated to world change in one form or another. Be aware, though, that this placement can find you being asked to give up your individual identity in favor of the group mind. Power and control issues can surface also. You may go through periods in life where you find yourself surrounded by people and at other times you wonder where everyone went. Connections with others often begin with intensity and then end in strange circumstances. This the house of acquaintances more so than best friends.

**Chapter 12: Elements, the North Node, and the Midheaven**

In this section of the report we interpret the following astrological influences: the Moon's North Node, the MC (the 10th house cusp or Midheaven) and also a preponderance of an astrological element. A "preponderance" occurs when 4 or more planets or the Ascendant is in that element: fire, earth, air, or water. Many people do not have a heavy emphasis of a particular element so not everyone will have an interpretation of an element emphasis.

If the individual chart has aspects to the MC, these will reveal certain career options and potentials for your consideration.

The North Node is an important pointer along the pathway of life. You'll have to be willing to stretch yourself and move away from familiar patterns in order to meet the challenge of the North Node. Great rewards will be reaped in the form of personal growth and reaching your potential goals. The North Node sign will suggest an approach to the area of life represented by its house position.

*North Node in Gemini:*
Incorporating the following traits into your life will make it easier in the long run to attain goals. The best way to describe this principle is to imagine a bird having to leave its nest for the first time. It is extremely challenging, but it's the only way to really learn to fly.

Express yourself! Polish up your communication skills and actively participate in conversations. Let your natural curiosity about life lead you. Take lots of courses in subjects that interest you and read many books. Teach others what you know. Put your thoughts down on paper and then share them with others. Develop tolerance for all of the wonderful variations in people. Become someone who is willing to try out new experiences.

**North Node in 11th house:**

The universe is encouraging you to play up the aforementioned traits in these areas of life.

Consider the following: join together with other individuals who share the same common goals. Clubs and organizations provide beneficial opportunities for you. This is the area of humanitarian efforts, most commonly centered around the desire to create radical and widespread social changes.

You'll need the support of friends and numerous acquaintances. Learning to cooperate with the group effort is the key here. Growth comes from mastering the ability to blend your personal will with the will of others in a harmonious manner.

**MC Conjunct or in hard aspect to Sun:**

You'll have to develop the ability to put yourself in the limelight in order to go after what you really want career-wise. Ego conflicts with those in authority can create setbacks until you learn the art of finding a middle course.

A career that provides an outlet for creative self-expression, leadership abilities and personal recognition is important to consider. Hint: read the section on your Sun Sign and ask yourself how those traits might best be expressed when choosing a career.

**MC in soft aspect to Saturn:**

You're a diligent worker and others feel that you can be counted upon to deliver what you promise. Your rise to the peak of your career may not happen overnight, but Saturn always rewards a job well done when the time is right. Step by step is the key here.

Suitable career options may include: politician, government worker, manager, accountant, corporate executive, construction and building worker, chiropractor, doctor, or dentist. Wherever precision combines with form, or reliable leadership qualities can be brought into play, you have a career possibility.

**Four or more Fire Signs**

Energetic and aggressive, in this lifetime you will learn all about inspiration, faith, and living in the moment. Your intuition is highly developed and it's not unusual for "fiery" people to see visions.

Sports and athletic events are an excellent way for you to fill your need for a challenge while satisfying your inner competitive drive.
Chapter 13: House Rulerships

This chapter deals with an Astrological technique known as House Rulers. The "houses" of the horoscope deal primarily with your earth plane experiences. As such, the tone of these interpretations may appear to be more "predictive" in nature. Not all statements will apply absolutely to your experience. Here we are exploring some of the various options that may exist in your chart based on the links between these twelve major areas of life, the Houses of the Horoscope.

**Ruler of 2nd house in 1st:**

What you have as far as the money you earn and your possessions influences your outlook on life, as well as your self image to some extent. Your early childhood probably influenced your value system and your sense of self worth.

**Ruler of 3rd house in 2nd:**

Your mind runs along moneymaking ideas and anything that has to do with communicating ideas. Writing and teaching could add to your personal income. Here also is the possibility that you have a pleasant sounding voice and perhaps even some singing ability.

**Ruler of 4th house in 3rd:**

Childhood experiences had an exceptionally strong influence on your emotional security foundation. Your upbringing was influenced strongly by a close relative or relatives and could have been more education oriented than usual.

**Ruler of 5th house in 4th:**

Love and love affairs may be more fulfilling later in life. Investments and speculation may be successfully applied to real estate and property matters. Your children or children in general feel comfortable in your home. Your children may become like your "parents" later in life. Your creative ideas are often expressed in your home through decorating, cooking, etc.

**Ruler of 6th house in 5th:**

Your work could involve children. You tend to have a lot of worry and concern about your own children. You want only the best for them. You would rather have the work you do be very creative or at least it should be something you get a lot of personal pleasure from. Additionally, the work you do could have some kind of risk attached to it. If you have pets, you probably treat them like they were your children.

**Ruler of 7th house in 6th:**

A close friend or your spouse could become a co-worker or even an employee in some regard. You
may meet your marriage partner in your work environment.
Your need for supportive relationships may be fulfilled at work or connected in some way to the work you do.

*Ruler of 8th house in 7th:*

You need a certain amount of control when it comes to partnerships of any kind. You feel intensely about close relationships and you just might be someone who also feels strongly about confining your sex life to the marriage state exclusively.
You may want to have some control over your partner's finances and this can become an issue you'll both have to work out together.
A major lifestyle change can come about through a marriage partner, close friend, or even a business partner.

*Ruler of 9th house in 8th:*
